

D 0:00

Alright, we are back with the wakeup show with IMD on WMD media. We got Dr. Peter Kulish on the line. Good morning.

Peter Kulish 0:12

Good morning IMD. How are you?

D 0:14

Hi, I'm good man. Good to hear your voice on this Truth Talk Tuesday.

Peter Kulish 0:21

Well it's sunny outside. It's nice and cool. I mean the weather's great. What can be better?

D 0:30

Nothing can be better. Right?

Peter Kulish

Well Lets hope so huh

D

Well, let me let me give you your introduction, ladies and gentlemen that are tuning into the show. It's a truth Talk Tuesday. On the line is our resident doctor, doctor Peter Kulish, founder and CEO of BiomagScience, the natural healing energy, conquering pain increased vitality, health and vitality carpal tunnel, tendonitis, toothache headache, backache, arthritis, injuries and more.

Good morning, Dr. Peter Kulish. How are you man? Seems like I aint talked to you in about a month or two man. Where you been at

Peter Kulish 1:14

Well I tell ya its fast and hard out there. You know, we're just trying to stay up with all of it. You know, everybody, I guess everybody's getting ready to vote pretty soon, you know, have a whole change in the political scene, maybe start seeing some real action happening, you know, the subject I'd like to talk about this morning, I was reviewing things with some of my people and **Dementia** and **Alzheimer's**. Oh, that's a tough thing. You know, it's all of a sudden, you have a loved one who, you know, they stopped, they stopped being able to communicate.

D 2:07

My grandmother passed away from dementia. And Alzheimer's, what do we call it

Peter Kulish 2:15

Well Dementia, Alzheimers. You know I tell ya so its interesting. You know, **everything that we've done in medicine has occurred because someone tried something or they had to try it for something**. And so this nurse, as nurse, she would go visit her mother. She'd stay there two hours. She just be the mother. Mother didn't even know she was there. It was catatonic. You know, it was only a matter of time when, you know, the body was just going to give out entirely and you know, because the thing is, is that what happens with you know, as you well know, you know, just the one function of the brain, you stop talking, you stop thinking correctly, able to communicate correctly. And then that same unfortunate function moves into the section of the brain that operates the body. And that's that's pretty much it.

So, she said, you know, what do you think, can we do something? I said, Well, I don't know. I mean, I really don't know. But let's, let's try. So what we did is a very location that we use is the back of the neck, right on the middle back of the neck, on the skin at the hairline. That's actually called the CVS Cerebro Vestibular System area. But anyway, we put a stack of magnets there.

D 4:26

The small ones?

Peter Kulish 4:30

And I'll tell you what, I didn't know we weren't in communication with that nurse. She wasn't. We weren't in communication with her all the time. But she called back a couple of weeks later, it said that her mom starting to wake up and starting to recognize it. She was there. And then a month later, her mom is fully woken was talking with her. She came back. S this is what we've seen through the years.

And another another lady who to a dear friend whose mother was she wasn't quite catatonic but she didn't know she didn't know her daughter. He didn't know anything that was really going on. But she was still kind of muttering. And

D 5:18

excuse me. going on over there. Dr. Peter, what you got going on over there this morning?

Peter Kulish 5:23

You know, the electronics coming in, they are all trying to communicate from all over the world. Don't you know?

D 5:30

I know you big time, Dr. Peter Kulish Mondays with D in the wake yo show, we know you big time. So we're talking about dementia, and the Alzheimer's and Dr. Peter Kulish is going to educate us on the bio magnets that could help with dementia and Alzheimer's.

Peter Kulish 5:51

That's exactly what we're talking about.

D 5:52

Okay. All right. Go ahead, Doc. I'm sorry,

Peter Kulish 5:56

It's a very similar story. The woman was really not with us, but her daughter would go see her. And so we put the magnets on. Within a month's time she was back. And in six weeks time she was out of that hospital. She moved back home. She had a whole newfound energy. The daughter was laughing about how much energy her mom had it was like it's all story up and it was all flowing out at one time.

But we went we did some studies and you know, I did some studies with your brother Mike. And what we learned is that **if the cerebral spinal fluid that's in the brain state in the brain**, it's also down your spine. But **if that has a tendency to go toward an acid state**, which it does in some people. **It builds up plaque and the plaque tests between the neurons which stores the thoughts and**

it doesn't allow the signal the synapse to flow between the neurons. It just puts a wall up and that's basically what Alzheimer's or dementia whatever you whichever way you want to call it excuse me I got something in my throat here

Peter Kulish 8:04

So, anyways, what happens is this plaque builds up, well, we put the magnets on and this is one of the things about the magnets is not only does it it changes the biochemistry, the blood chemistry from if it is acid, it will go alkaline, but it changes the cerebral spinal fluid in it alkaline making it alkaline and this dissolves the plaque which allows the synapse to transfer between the neurons. So basically allows you to start thinking again. It takes the walls out.

D

So the 2 little magnets?

Peter Kulish

Ya you put the 2 little magnets on the back of the neck. Now we will say this they have to be drinking the energy water

D 9:14

so, you may have to drink the energy water, the water that I make with oxygen and the magnets

Peter Kulish 9:26

The minimum is with the energy water, of course the oxygen is always helpful, always helpful. But the minimum of the energy water because the energy water increases the hydrogen ion availability to the cells to the to the glands and organs and it helps support a increased function, which means that water just helps your metabolism function better. Which is important. You know I mean always you want your metabolism to function the best as it can.

So you just put a pair of these magnets. Now wear them all the time because I like the clarity from it. It gives you calmness, it gives you clarity. I don't know. I mean I appreciate that and I know a lot of people will wear them on the back of the neck.

But in the case of dementia or Alzheimer's, wearing it on the back of the neck, will make that cerebrospinal fluid will make it go into an alkaline state and dissolve that plaque, and once that plaques dissolved is a suprise there's not... those people seem to come back with all their other memories, I mean very few memories are lost.

I mean, you wouldn't know you wouldn't know that they ever had it

Its just that simple and you know. I mean their trying all of this advanced stuff. And of course, you know, this is **energy medicine**.

I mean, it is you know, it's it's an alternative to allopathic medicine, which has not really been able to find the answers. You know, and and there are cases for energy medicine and alternative medicine supersedes allopathic medicine and this is the, this is sweet, this is the 2 little magnets on the back of the neck and drinking energy water. Well thats it

D

That's it?

Peter Kulish

That's it. So, you know you get your wellness kit, you take a pair of the **power wafers** out of it. You get one of those **water jar energizers**. now the thing is is that the individual and if the individual's in an institution, well you know many times the family will stick them in a care institution to do it. at a certain point, their going to need professional full time help. You may have to tell, well ask the people if they will please give them the energy water. Well ask the nurses or the caregivers give the individual the energy water.

D 12:34

Hold up doc, Let's update people. Alright if you're just tuning into the show on the line this morning is Dr. Peter Kulish who is the founder and CEO of BiomagScience and his book conquering pain, increasing vitality. Okay. He has his health and wellness kit BiomagScience wellness kit right now. And this morning we were discovered discussing Dementia and Alzheimer's. So if you know somebody that's dealing with dementia and Alzheimer's, Dr. Peter Kulish is giving you some tips on how to deal with that correct Doc?

Peter Kulish

Yeah, yup

D

okay, go ahead.

Peter Kulish 13:09

Well, I just think it's so remarkable, you know, we're able to help people achieve with some medical conditions that are way out there. I mean, let's face it, you know, Alzheimer's, dementia, it's, you know, it's not something anyone wants to die from. And it's not something that anyone wants their relation to go through, their relative to go through. So... ya, and So here's a simple, simple kit, simple method

D 13:44

How do you get the kit

Peter Kulish 13:47

well you know they go to the site and right at the top it says wellness kit there. Now if anyone wants to they can go down and look at the conditions you got to go on the navigation or the menu and go to conditions and just looked up Alzheimer's, and you can read all about it. But what you need to get, is to get the wellness kit.

D 14:24

Hold on, hold on Hold that thought. You guys are just tuning into the show this morning. We got Dr. Peter Kulish on the line. He is the founder and CEO of BiomagScience. We really are touching on some something that that affects a lot of us in the black community. I know my grandmother, we lost her have dementia and Alzheimer's. And Dr. Peter Kulish is educating on us, is educating us excuse me on how your loved one or your family member or your friend can be helped who is dealing with dementia and Alzheimer's so

So Dr. Peter go ahead and recap on what to do, if they were to get the kit, what did it, how to use the kit? To use it for someone who has dementia or Alzheimer's? What can we, what can what will it do to help them?

Peter Kulish 15:15

Well once your there, what you do is to get the to get the wellness kit and by the way, if you go get he the wellness kit, you put "imd" in there as the code when your checking out you know and it's gonna give you a 20% discount. So, use small letters, I M D small letters and you get that 20%

anyway you get and you take two of the small power wafer magnets and and you take one of the water jar energizers and one of the big thick rubber bands where the water jar energizers and you make yourself some energy water. Depends upon if the person that you're trying to help is living with you then of course you do this and

if they aren't, then you do at the facility. And sometimes it may be necessary to sit down with the head nurse or whoever that is the head caregiver and have them open up, I mean if they if they have any doubts in mind because you need to have them address this issue. It doesn't, it's not going to take a lot of their time. But they got, you've got to put the magnets, to put them on both sides of a band aid, green facing the skin and put the band aid right on the skin, right at the hairline, on the neck, middle back of the neck and you'll see your loved one with... you got to make sure that they are getting energy water and if there is a little bit of issues, then you've got then to discuss, or you've got to get some information, you know into the head of the nurse, caregiver, whoever is in charge, to make sure they do it. Have them open up their computer go to the site and just look up Alzheimer's

D 17:22

so ladies and gentlemen, if you're just tuning into the show we got Dr. Peter Kulish founder of BiomagScience. This morning on our True Talk Susie segment, were discussing dementia and Alzheimer's. Dr. Peter Kulish has found a way to help with dementia and Alzheimer's through the magnets bio magnets I have the magnets here I'm showing you on the screen. He's talking about the smaller magnets use those and you place them on the back of the neck of the individual who's dealing with dementia and Alzheimer's and you give them the energy waters, is that correct doc.

Peter Kulish 17:55

That's right. You just make sure the magnets are green towards the skin

D 17:58

Alright so thats green towards the skin. So you can get more information ladies and gentlemen if you go over to the site. Use the promo code imd in lowercase letters and you will get a 20% discount today. Again go check out the website. There's a lot of information. I don't know about you guys but my grandmother dealt with dementia and Alzheimer's We actually lost her because of that disease. Dr. Peter Kulish is on the line showing you how you can help someone who was dealing with dementia or Alzheimer's in your family. Okay, get the wellness kit I have the kit here in the kit. It comes with activated oxygen, right doc

Peter Kulish 19:03

Thats right, it comes with the water jar energizers

D

the water jar Energizer magnets that I'm holding up to the screen now and I actually got one magnet on my water this morning.

Peter Kulish

There you go.

D

And then we also have the small magnets that he's referring to to place on the back of the neck of the individual that is dealing with dementia, Alzheimer's right

Peter Kulish

Yup

D

Okay, so I'm showing you guys what we have. Okay, this is Dr. Peter Kulish. I have the kit here with me. Okay, this is what you'll find in your kit. Conquering pain increasing vitality Biomagscience, natural healing and energy and it works. So Dr. Peter Kulish, um, we're discussing dementia and Alzheimer's so what's the like? Like like Okay, say, say my grandmother is still alive and she's here. She's dealing with dementia and Alzheimer's, how is this gonna affect her? How's this then going to help her?

Peter Kulish 20:10

Well, essentially, what we've seen is people are entirely catatonic or people who were, you know, still monitoring, but they weren't recognizing a lot of stuff. But they hadn't they hadn't gone silent, what we saw is a complete reversal. The individual coming back. And I will say this that, it seems, psychologically from what we've observed, is that the individual is been kind of in a prison. And they have felt in prison, because when they come back, they exhibit so much energy. They are so happy. You know because then, all of a sudden, you know, they've been in the dark for so long. Then, my friend said that her mother was just, she called everyone up, she was just, had this amount of, oh, I don't know, all I can say is a huge amount of energy that she's had to extend it. It took about maybe, maybe a month or so, before she finally got toned down to about normal again. And so that's one thing to expect, is that this, the individual comes back and seems to exhibit a tremendous amount of enthusiasm. And continued enthusiasm, but it then settles out, you know, couple weeks to a month or so later on so.

So that's something to be prepared for. You know, there's one thing about these magnets, I mean,

I wear these the back of my neck too. And you know many people do, many people who are aware of the system. It's just nice. It's it gives you a calm, clear feeling. But the thing is, is that it's so important wear it's because you know, its energizing, your energizing your system. And when I say you energize the system, you know, we looked, we actually had tests where we've tested the voltage, the actual voltage in the cell and in the membrane of the cell. And you can see when people are ill, we can test them and we can tell them basically, why they're ill because their cells don't have enough charge,

electrical charge to operate sufficiently. You can almost think about the cell being a battery. If it was in a flashlight, the lights would be dim.

D 23:27

That's a good analogy

Peter Kulish 23:34

And then I'll tell you what, the magnets they charge the batteries, they charge the cells, you know the light, which you can refer to as your health all of a sudden becomes light and that's what you get from wearing these things every day. You know, we always think about these magnets as daily energy supplementation, because that's exactly what you get when you wear these magnets

D 23:57

daily energy supplementation. That's correct.

Peter Kulish 24:03

Daily energy supplementation Yes, sir. That's it. And you know what you do? You live longer and you live healthier.

D 24:11

Who don't want to live longer and who doesn't want to live healthier? I know I do. Dr. Peter. I want to live a long... I don't want to live too long though. I don't want to live till I'm 190 I'm I live till I'm 80 I'm 47 Give me another 33 years and I'm good... three more decades doc, that's all I need, three more decades

Peter Kulish 24:43

Well see when you get that 33 years then if its healthy, then youll want another 33 years

D 24:44

oh no I'm good. I'm good, at 80 I'm out of here. I aint try to be here that long. Im good at 80 years on this earth is enough. I got we got we got like three more minutes with you anything else you want, because you're given us some good information. If you're just tuning into the show, we have one line our resident doctor, Dr. Peter Kulish, who was the founder and CEO of BiomagScience, the natural healing energy magnets. Okay, you can get your kit today. Today we were discussing dementia and Alzheimer's and he's discussing and telling us and educating us on how these magnets can help with someone who's dealing with dementia or Alzheimer's.

If you know someone who's dealing with dementia, or Alzheimer's does mean something personally to me, I lost my I lost my grandmother, my mom's mother to dementia and Alzheimer's a few years, some years back, and it devastated our family. We haven't been in the same sense. So Dr. Peter is on the line. And he's educating us on his BiomagScience on how it could help with dementia and Alzheimer's. Now the only way that this can help you guys is you got to get your own kit. You can't use mine, this kit its mine its my kit. I'm not giving you my kit, but you can get your own kit today. Go to the site. Use the promo. IMD that's three initials I as an inspiration. M is in motivation. D as in determination, lowercase letters, make sure there are lowercase letters IMD and you'll get 20% off today and in your kit is going to come with the magnets that Dr. Peter Kulish is talking about, I'll show it on my screen. These are the

magnets that go on your body. These are the magnets that go on your drinking water as you can see I have it on my drinking water as we speak. This is the activated oxygen that also comes in the kit. I drink oxygen water in the morning helps me with my energy. So these are the things that are in the wellness kit. Each home should have one of these wellness kit is like a, what we call it again. It's like a first aid kit. Everyone should have this health and wellness kit in your home. Get your BiomagScience kit today. Head over to the site. When you go to the website, all the information is on there. When you go to purchase your wellness kit please use the promo i m d that's I as an Inspiration M as Motivation D as Determination i m d lowercase for you 20% off today. ok doc you got any last parting words you want to leave us with tonight?

Peter Kulish 27:46

I want to say one thing about the wellness kit is that you get a book. And that book is got everything you need to know to do over 180 various simple to very complex medical conditions, you know whether it's a sprain or torn meniscus in the knee or if its MS have you got chronic fatigue, you know, or you got tendinitis in the elbow, that's all in there gives you a step by step process, the exact protocol. It's all in there. And then there's a guide that shows you the pictures of how to place these things. So in other words, everything is spelled out we put this thing together. Now, if you've got something that you're really not sure about, then give us a call or drop us an email. either way, we will respond to it and guide you through whatever issue you got, so that's what we're trying to were just here to help

Peter Kulish

we're just here to help that's that's the story were just here to help

D 28:57

and that's, this is exactly why I love that you are our resident doctor, I love that you are on this show because you are here to help people and this is why I respect you Dr. Peter Kulish because your job as a as a physician, a doctor is to help people and that's the business that you are in, the business of helping people so we appreciate you being a partnership with the Wake Up Show what I am D we thank you so much for your Tuesday call ins you educate us very well.

You know, I learned something new every week when you call in. That's what I like. I like to learn something new. Because you know my fans, they know me as a comedian. They don't think I'm serious when I started talking BiomagScience. They're like what he knew about BiomagScience with his GED self.

So this is the reason why we got Dr. Peter Kulish on the line each and every Tuesday. You ain't gotta hear it from me. You're gonna hear from the doctor himself. So again, Dr. Peter Kulisg, founder and CEO of BiomagScience. So any last parting words? Before we let you get out of here,

Peter Kulish

No just every body be well and and you all take care and then Daryl thank you I always appreciate it, your a great guy , I've had a great time, very good sir

D

No thank you for all that you're doing for us and the community. Everything that you have done. The things that you are going to continue to do to help us live longer and to have a long and prosperous life. Again Dr Peter Kulish,

founder and CEO of BiomagScience, resident doctor here on the wake up show with IMD. Hey doc well talk to ya next Tuesday man

Peter Kulish

Sounds great man see ya next week Good bye not

D

Okay so thats Dr Peter Kulish, founder and CEO of BiomagScience. Thats my guy, thats my guy. Thank you Dr. Peter Kulish for calling in. Just like I tell you guys when he was on the phone. Dr Kulish is a world renowned Doctor. He knows his stuff. You know we dont bring anybody on this show that is not on point with what they do. And more importantly I dont endorse anything that I dont believe true or working. BiomagScience works.

I use these magnets on my knees. I got bad knees from playin basketball. I use it on my back when my back is acting crazy. And now hes explaining to us how this could help people with Dementia and Alzheimers and that is a beautiful thing, a beautiful thing. So please if you need to get your biomagscience kit, go to the site use the code imd lowercase letters and get your health and wellness kit today. It should be in every home like a first aid kit. This is your first aid kit. I got mine so now you need to get yours. Okay Dr Peter Kulish, founder and CEO of BiomagScience, our resident doctor, calls in each and every Tuesday.

I got my energy water already going. So what I did was with the energy water is I drop some activated oxygen drops inside the water and then I add my magnet to it and then I let it sit for a few minutes and then Im going to drink this thing and its better than coffee. It energizes me. It cleanses me good.

So I totally support BiomagScience, we support BiomagScience on the IMD show on media
